

*100 % Handmade in
Schleswig Holstein*

Note:

The towel was washed and dried once by us before sewing and embroidering so that it does not shrink afterwards. Some lint may still adhere to the Bike Towel and fall off. This is from cutting and sewing. The Bike Towel itself does not lint.

The Bike Towel will only wear on the handlebars in the grip area over time.

Foil residue on the logo embroidery is normal. They are water soluble and are gone after the first wash or can be easily removed by dabbing with water.

Any chalk residue on the centre seam has also disappeared after the first wash.

Machine wash at 30 - 40 degrees. When washing, make sure that the Velcro fastener is precisely closed, as open Velcro can wear out the seams.

For the sake of sustainability and the protection of our environment, we do not use outer packaging for the Bike Towel or printed instructions for use.

Have fun with your Bike Towel – your bike deserves it!

Enno & Paul
